

NAVAL.—The U. S. ship Yorktown was to sail from New York on Thursday for the coast of Africa. The following is a list of her officers:

Commander, Charles H. Bell; Lieutenant, H. A. Steele, J. A. Doyle, M. C. Masin; Assistant Master, John S. Neville; Purser, John N. Hambleton; Surgeon, Wm. L. Van Horn; Assistant Surgeon, L. J. Williams; Passed Midshipmen, Samuel Edwards, F. W. Colby, H. S. Newcomb; Midshipmen, J. H. Carter, Wm. S. Cushman, and F. A. Roe; Boatswain, J. Lewis; Gunner, T. M. Crocker; Carpenter, H. W. Lindsey; Master's Mate, John Lawrence.

The U. S. frigate Columbia sailed from Cadiz August 27 for Lisbon, all well. Captain David Geisinger had arrived at Cadiz, but had not, at the last accounts, assumed the command of the Columbia.

The U. S. sloop-of-war Fairfield, Samuel W. Downing, Esq., Commander, arrived at Palermo on the 10th August from Naples, and was to sail in a short time for Tunis, Tripoli, and Malta, and rendezvous at Port Mahon by the 8th of the present month. Officers and crew all well.

SINKING OF THE BATTURE.—The batture in front of the First Municipality, extending from the lighthouse to Du Maine street, still continues to sink, and the wharves for the whole distance, with few exceptions, are rendered almost useless. Yesterday, the batture between Toulouse and St. Louis streets, extending from the levee to the water, about 200 feet of which had previously sunk 4 feet, sunk 2 feet more—the inner ends of the wharves at the same time separating from the levee, and slipping out four or five feet. It is probable that the batture will continue sinking gradually for ten or twelve days longer, when it will become sufficiently firm to allow the wharves to be repaired—the cost of which, as the planks and timbers can be rescued, will not exceed \$10,000.—N. O. Bee, 3d inst.

SPOTS ON THE SUN.—A correspondent informs us that he has discovered two very distinct spots upon the sun, one about ten seconds diameter, and the other six. They are visible to day, if the sky is clear, and may be seen through a piece of smoked glass.—N. Y. Sun.

TRACTS.—The New York City Tract Society employs twelve city missionaries, and has the gratuitous services of about 1,100 monthly distributors. The gratuitous issues of tracts have amounted to about 7,000,000 pages in five months. Thirteen steam power presses, (equal to between 30 and 40 common printing presses) are employed in the society's work.

SANDS'S SARSAPARILLA.—A perpetual process of deposit and absorption is going on in the human system. A portion of the blood is converted into the various tissues of the body as fast as the worn out material is taken up by the absorbents, and discharged through various channels from the system. Now it is evident that if the blood is diseased, the substances formed from it cannot be healthy; and therefore so long as the blood is impure every organ, fibre and issue of the human body will be in an unnatural state. The condition of the system may be variously developed, sometimes outwardly, as in scrofula and other ulcerous and eruptive diseases, rheumatism, &c.; and sometimes in the circulatory system, in swelling or decay of the bones. It is clear that one remedy, which will remove the common cause of these deplorable disorders, will also cure each and all of them. That remedy is presented in Sands's Sarsaparilla, which, acting directly upon the vitalizing fluid, converts it from a morbid and unhealthy state to a fit condition for the purposes of healthful life.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Wholesale Druggists, 79 Fulton st., New York. Price \$1 per bottle; 6 bottles for \$5. Agents for Washington city:—ROBERT FARNHAM, Bookseller, corner of Pennsylvania avenue and 11th street, and R. S. PATTERSON, Druggist, corner of Pennsylvania avenue and 9th street.

Passengers from Georgia by the Southern boat report the election of Poe over the traitor Chappell, and the supposed Whig majority in the S a e at 2,000. KING, FLOYD, STEPHENS, and TOOMBS, are no doubt also elected, the two latter by large majorities. The vote in the two latter gentlemen's districts is unusually small, created by the certainty of their success.

### PENNSYLVANIA.

LATER AND MORE CHEERING NEWS.—There is every probability of the re-election of the talented Pollock to Congress. Union has given Pollock a majority of 1,096. Petriken's majority in Lycoming is 200, and in Northumberland 703. Pollock's majority is now 93, and Clinton county to hear from, which may give Pollock a small majority. We have every reason to believe that Pollock is elected.

It is rumored that Chester Butler, Whig, is elected to Congress in the Columbia district. Millionian (Pa) extra, Oct. 9.

CLAREHUGH'S TRICOPHEROUS, OR MEDICATED COMPOUND, FOR THE CURE OF THE TRICOPHEROUS, OR MEDICATED COMPOUND is now acknowledged by thousands, who use it daily, to be the only remedy to prevent Baldness, and to restore the hair that has fallen off or become thin; to prevent Gray Hair; to cure and remove every appearance of Scurf and Dandruff from the hair, and to keep it in its most healthy, soft, and glossy state.

BALDNESS. Gentlemen who have become thin, or fallen off from natural decay, the effects of fever, or other disease, or what may be termed constitutional predisposition to baldness, will by the use of this compound have their hair entirely restored. If faithfully and regularly applied when the hair first shows symptoms of decay, or after it has fallen off—no matter from what cause, he confidently assures both ladies and gentlemen, that the hair will never be lost, but will be restored to its natural healthy vigor.

GRAY HAIR. At all ages the appearance of gray hair indicates a relaxed state of the nerves and blood vessels connected with the root. Numerous causes tend to influence the change of color—such as study, fright, fevers, long sickness, head aches, too great devotion to business, or the very common practice of wearing the hat within doors.—The progress of gray hair at all periods of life may, if attended to, be prevented, and those hairs that have prematurely changed may be again restored to their original color. To effect this end, it is recommended that at all times and seasons the head be kept cool, the hair cut rather short, the free use of the hair brush, evening and morning, and the application of this compound every evening for a short time will increase the activity of the skin, promote the circulation, and restore the nerves, blood-vessels, &c. to their healthy action. Persevere in this course, and the result is certain.

SCURF AND DANDRUFF. This compound is strongly recommended to keep the head entirely free of all Scurf and Dandruff. Nothing is more injurious to the growth or beauty of the hair, or to a healthy state of the skin. In all cases where the head is subject to it, or where it may have accumulated in the hair, an application will readily remove all appearance of it, and its occasional use will keep the hair clean, soft and glossy.
